## Documentaries

505/10 Regent St

<https://youtu.be/6jfbdhG2110>

## Archives

NB: Videos with “HD08” or “HD04” in the title are for archival purposes. When viewed by a video player they will seem to run too fast.

They are recorded with a photo duration of 0.08sec in HD (1980x1020) to have at least two frames for each JPG file stored in the video.

If viewed with the app VLC (in pause mode) the images can be individually saved with the command [Shift+S].

This method is slow but retrieves JPG files as clear as the original JPG recorded .

When downloaded the video can be decoded by an app that retrieves all the JPG files automatically (such as "Free Video to JPG Converter")

But the free version of this app does not provide pictures as clear as VLC does.
